

What is the Local Offer?

As of 1 September 2014 all local authorities were required to consult with young people, families and providers of services and publish a Local Offer detailing the information, advice and support about Special Educational Needs and/or Disabilities (SEND) provision in their area. Which allows families more choice, control and opportunities to access the range of services and support available to meet their child's needs.

The Halton Local Offer website provides comprehensive, accessible and up-to-date information, advice, support and details of services responsive to meeting local needs and aspirations.

It has been developed, produced and regularly reviewed by involving children and young people with SEND, their parents/carers and service providers. The Halton Local Offer can be found at: www.halton.gov.uk/localoffer
