

## French at Farnworth CE Primary

At Farnworth, we intend to foster a love of language and a respect for other cultures in our pupils. With the weekly teaching of French, we enable children to learn through the fun of games, rhyme, and song alongside conversational work. As they travel through school, children are taught to write using the correct grammar and sentence structure. A wide range of topics are covered by following a carefully planned and thought-out curriculum which holds interest and engages pupils from all backgrounds, ensuring that French is accessible for all beginning in Early Years, progressing through Key Stage One and Key Stage Two.

Opportunities arise for children to develop their speaking skills outside of their French lessons for example when greeting each other and answering the register. The pupils at Farnworth are always excited to learn French and all about the diversity of language and cultures which supports development of the whole child. Knowledge and understanding are built on year after year as children harness techniques and flourish in confidence across all aspects of French: reading, speaking, listening, and writing.

It is our intent for children to leave Farnworth with an understanding of both written and spoken French. Having developed confidence in another language along with their peers, the pupils at Farnworth understand how important it is to continue their learning as they progress to secondary school and enter our fast paced and rapidly developing world.
